◆ Japan Premium Brand Fabric Collections

Seven of Japan's most influential interior fabric manufacturers participated, returning to the JAPANTEX roots. The outstanding technology and sophisticated designs allowed visitors to experience the charm of fabric.

◆ "Medical design" and "interior design medicine" create comfortable medical spaces

They propose medical spaces where one can be close to people and walk together. The exhibit featured safe and secure products made with an understanding of the special characteristics of different generations, and inte-

riors combining functionality with a comfortable design sense. Visitors could experience "Interior Design Medicine" incorporating both chemical evidence and the opinions of the people on site.

◆ Windows Paradise 2018/JIIA + NIF
Fabric Pao and "The Story of a Multi-generation Home"

Designs by 5 people with ideas mobilized by MADOWTSUKAI

Exhibiting for the 2nd time this year, these professionals with a double license, combining high levels of skill as window treatment planners and the wide interior design knowledge of interior coordinators, exhibited "The Story of a Residence" Windows Paradise 2018, about a landlord who is considerate even in old age, and people from a wide range of age-groups who live together there.

Joint sponsors: Japan Interior Industry Association (JIIA)

The Landlord's Room is a mixed room combining serenity and functionality

Everything in this room functions in harmony with the life situations of the residents. This functionality is dressed up in an authentic oriental style. The designer has also inserted the philosophy of Buddhism and Zen into John Lennon's ideas on love and respect. This is a mixed room of serenity and functionality that can only be found here.

Child-raising Mama's Room is a cheerful dining room filled with smiles

This room overflows with love. We made a cheerful room for a single mother who is given strength every day by the vibrant smiles of her beloved children. The color coordination expressed the children's energy with yellow based colors, and the mother's femininity and core strength with gray based colors.

Single Woman's Room Everyday Refresh Room

A single woman designed a healing room where she can take time to relax, both on and off. Making generous use of "colored lace", it is a room where one can refresh oneself after a hard day. It accents the curtains and walls, and aims to create a visual effect.

A Male Student's Room ART & ROCK PARADISE

He is a 19-year-old man who loves UK rock. The landlord has influenced him to become addicted to the Beatles. The drawn pictures on the wall are presented by digital prints. With the spirit of NO MUSIC, NO LIFE, he is becoming more himself as he lives there. He is also interested in environmental problems, so the furniture consists of recycled items he has picked up.

GRAND MADOWTSUKAI's Fabric Pao

Five Paos dot the hall rhythmically. Each has a different concept, with different fabrics, creating a new radiance in Pao. Some are like sparkles coming through the window, others are like the beauty of sheer emerging in the night light. At the same time, we also created an

angel with its torso wrapped in sheer fabric as a symbol of Windows Paradise. When you find the magical power of fabric hidden all around the hall, please look, touch, and take that charm home with you.
