

# Japan's Largest International Interior Trade Fair is back for the first time in 3 years!

As our living environment changes, so do our lifestyles, and the impact of interior design is increasingly attracting attention.

JAPANTEX 2022 is not only a great opportunity to directly promote the features of your products, but also a great place for exhibitors to interact and exchange the latest information as well as communicate with other exhibitors in the same industry.

We hope that you will consider exhibiting at the JAPANTEX 2022 as a venue for new business opportunities.

930 Interior Coordinators  
436 Architects  
383 Window Treatment Planners

It was great to see so many people come to the event.

About 85% of exhibitors have high expectations for future business.

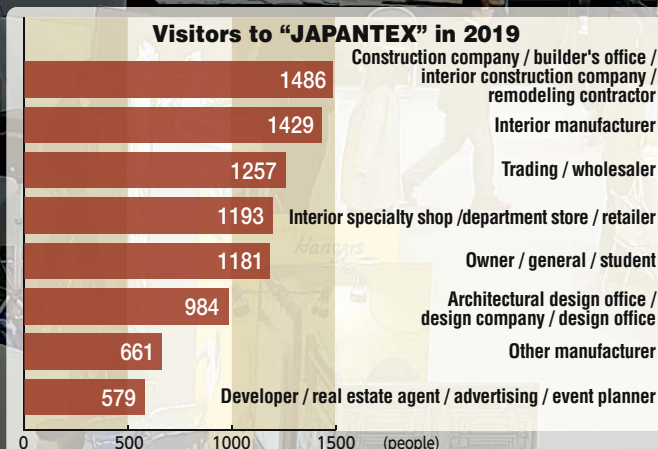

About 98% of visitors, including those who are still considering it, said they would like to come again next time.

Many related companies visited, so we will definitely consider exhibiting again next year.

About 90% of exhibitors plan to exhibit in the next show.

The venue was full of energy. Perhaps it was because the seminars and presentations were well received.

We were able to propose new forms and roles of interior design from the perspectives of education, disaster risk reduction, welfare, and the future.

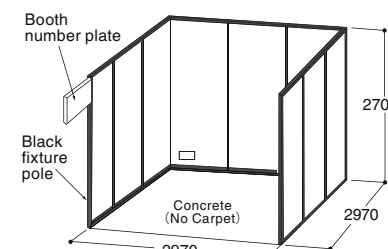

## Exhibit Fee

※System fixture poles are aluminum painted black.

### Basic Booth

## The Power of Interior Design to Change Lifestyles

Japan's Largest International Interior Trade Fair

INTERIOR TREND SHOW Architecture + Interior WEEK

# JAPANTEX 2022

Date **2022.10.26 [WED] → 28 [FRI]**

Venue **Tokyo Big Sight / East Hall 3 10:00 ▶ 17:00**

Organizer **NIF** Nippon Interior Association / Japan Management Association

The JAPANTEX online event is scheduled to begin on November 9

Jointly held 「Japan Home & Building Show 2022」 「Asia Furnishing Fair 2022」

# “The Power of Interior Design to Change Lifestyles”

## Join us in communicating the future of living that can be realized through interior design!

Held with the aim of realizing affluent lifestyles and developing the interior design industry over the 40 years since 1982, JAPANTEX is one of the largest international trade fairs for interior design in Japan. Today, people are increasingly interested in the living environment, and this is the first time that the event is being held in three years, so now more than ever let's take this great opportunity to communicate the future of living.

### SDGs×JAPANTEX

#### Environmentally Friendly Products and Business Activities

Products that are environmentally friendly from manufacturing to disposal and initiatives for sustainable business activities are all gathered in one place. The latest information for realizing the sustainable development goals is of great interest to many interior designers and architects worldwide.

### Seminar & Talk Session

#### You can see the “now” of interior design.

This year, we will again invite trendsetters and panelists from various fields to hold seminars and talk sessions on topical issues. One reason for visiting the exhibition is to hear the valuable information only obtainable at the venue.

### INTERIOR TREND SQUARE

#### Popular Exhibitions with Even More Attractions.

Exhibits are presented by interior design professionals in a highly individualistic manner. We look forward to welcoming exhibitors from leading domestic and international fabric manufacturers!

### JAPANTEX Online

#### Increased appeal enabled by the relay system between REAL and ONLINE!

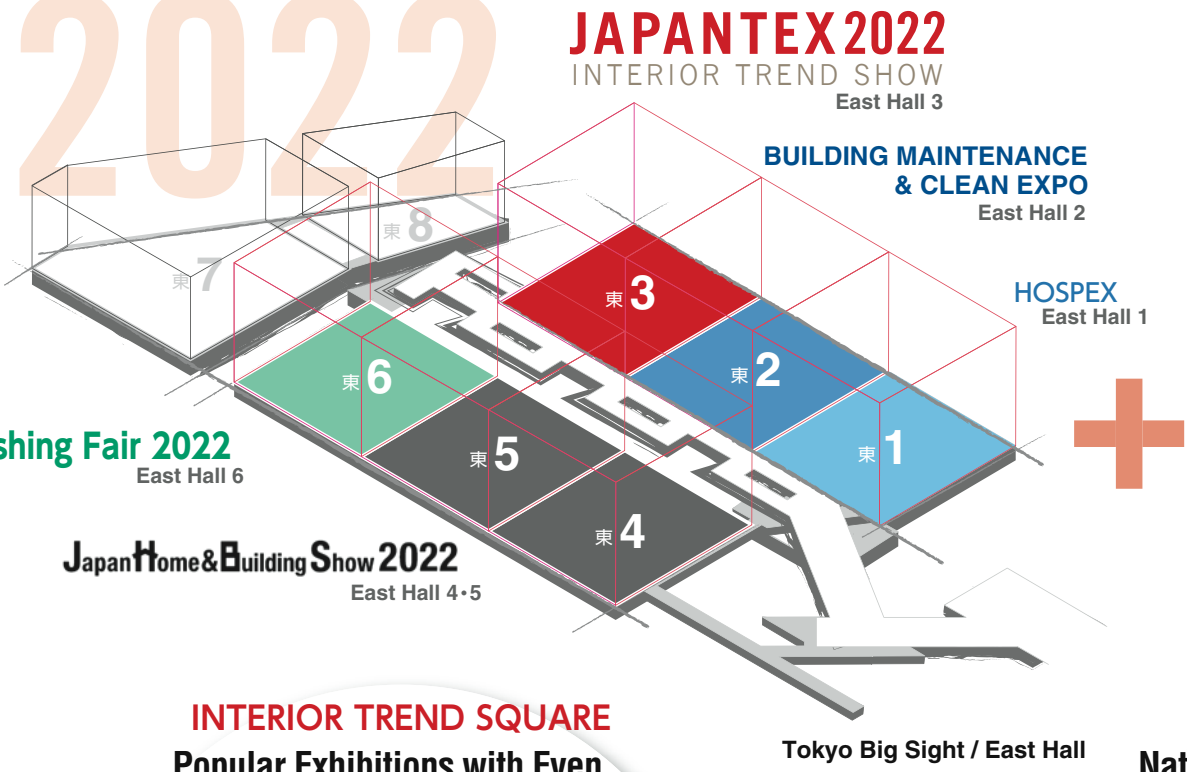

A metaverse-type “JAPANTEX Online” will be held after the real exhibition. This will be an opportunity for those who are too far away to come to the exhibition or those who missed it to see what is happening at the venue. (In 2021, 5,537 people participated.)

### Events & Awards

#### National Skills Competition by the Japan Construction Interior cooperatives Federation (JCIF) 33rd JCIF Kanto Skills Competition

For the first time, the JAPANTEX venue will host a national skills competition in which professional technicians for flooring and wallcovering finishes compete using the skills they have developed. We hope that many interested parties will attend the exhibition.
